Total Distributable Profit/(loss)	13,705,834.73

Notes to the Interim Financial Statements

1. **General Information**

Liberty Micro Life Insurance Limited (herein after referred to as the 'Company') is a public limited company, incorporated on 2079/09/17 and operated as Micro Life Insurance Company after obtaining license on 2080/05/01 under the Insurance Act 2079. The Company has commenced its business from 2080/07/26. The registered office of the Company is located at Pokhara Municipality, New Road, Kaski, Nepal. The Company's shares are not listed yet on any stock exchanges. Principal activity of the Company is to provide various Micro life insurance products & services mainly via digital platform through its various province offices, branches, sub-branches, and network of agents.

2. **Basis of Preparation**

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

i. **Statement of Compliance**

The Financial Statements of the Company comprises of Statement of Financial Position, Statement of Profit or Loss and Statement of Other Comprehensive Income shown as two separate statements, Statement of Changes in Equity, Statement of Cash Flows and Notes to the Financial Statements which have been prepared in accordance with the Nepal Financial Reporting Standards (NFRS) issued by the Nepal Accounting Standards Board (NASB) and in compliance with the requirements of the Companies Act 2063, directives issued by Nepal Insurance Authority and other applicable required disclosures. The format used in the preparation and presentation of the Financial Statements and disclosures made therein also complies with the specified formats prescribed in the directives of Nepal Insurance Authority. The Financial Statements have been prepared on a Going Concern Basis. The term NFRS, includes all the standards and the related interpretations which are consistently used.

ii. **Reporting Period and approval of financial statements**

The Company current reporting period is from **1st Shrawan 2081 to 32nd Ashar 2082** and Financial Statement prepared for this period is not approved by regulatory authority.

iii. **Basis of Measurement**

The Financial Statements have been prepared on the historical cost basis except for following Assets & Liabilities which have been measured at Fair Value amount:

- i. Certain Financial Assets and Liabilities which are required to be measured at fair value.
- ii. Insurance Contract Liabilities which are required to be determined within interval of every three years using actuarial valuation for Liability Adequacy Test (LAT).

Historical cost is generally Fair Value of the consideration given in exchange for goods and services.

Fair Value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

iv. Use of Estimates, Judgements and Assumptions

The preparation of these Condensed Financial Statements in conformity with NFRS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the reported balance of Assets & Liabilities, disclosures relating to Contingent Liabilities as at the date of the Financial Statements and the reported amounts of Income & Expenses for the year presented.

Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Changes in estimates are reflected in the Financial Statements in the period in which changes are made and, if material, their effects are disclosed in the Notes to the Financial Statements.

The most significant areas of assumptions and estimation applied in the application of accounting policies that can have the most significant effect on the amounts recognized in the financial statements are as follows:

- Fair value of financial instruments
- Classification of financial ASSETS and financial Liabilities
- Impairment losses on financial ASSETS and non- financial ASSETS
- Useful economic life of Property and Equipment
- Taxation and Deferred Tax
- Defined Benefit Obligations
- Provisions for Liabilities, Commitments and Contingencies

3. Significant Accounting Policies

The company has applied the accounting policies set out below consistently to all periods presented in the accompanying condensed financial statements unless specifically stated otherwise.

A. Goodwill and Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and any accumulated impairment losses. Internally generated intangibles, excluding capitalized development costs, are not capitalized and the related expenditure is reflected in Statement of profit or loss in the year in which the expenditure is incurred. Additional expenditures on intangible assets are capitalized only if they enhance future economic benefits embodied in the specific assets to which it relates, while all other expenses are recognized immediately.

Amortization is calculated using the straight-line method based on the estimated useful life, reviewed annually, and any changes are treated as accounting estimates. Intangible assets, categorized by software and licenses, have specific useful lives and residual values. De-recognition occurs when no future economic benefits are expected, with any resulting gains or losses recognized in the Statement of Profit or Loss.

Useful Life of Intangible Assets based on SLM is categorised as stated below:

List of Assets Categories	Useful Life (In Years) for SLM
Software	5 Years
Licenses	License Period

B. Property and Equipment (P&E)

Freehold land is carried at historical cost and other items of property, plant and equipment (PPE) are stated at cost of acquisition or construction less accumulated depreciation when, it is probable that future economic benefits associated with the item will flow to the Company and it can be used for more than one year and the cost can be reliably measured. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it meets the recognition criteria as mentioned above. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. The company applies NAS 16 "Property, Plant and Equipment" in the accounting of Property & Equipment including Right of Use Assets.

Repairs and Maintenance Expenses are charged to profit or loss during the reporting period in which they are incurred. Accumulated depreciation at the revaluation date is eliminated against the Gross Carrying Amount, and the Net Amount is restated to the Revalued Amount. Upon disposal, the Revaluation Reserve related to the Sale of Assets is transferred to Retained Earnings, and the difference between Depreciation on Revalued Carrying Amount of Assets and Depreciation based on Assets Original Cost is also transferred to Retained Earnings.

i) Depreciation

Depreciation of Property, Plant and Equipment (PPE) other than the Freehold Land i.e. the Company's Freehold Building, Plant & Machinery, Vehicles & Other Assets is provided on "Straight Line Method (SLM)" based on Useful Life estimated by technical expert of the management.

The Assets Useful Life/ Rate of Depreciation and Residual Values are reviewed at the Reporting date and the effect of any changes in estimates are accounted for on a prospective basis.

Useful Life of Property, Plant and Equipment based on SLM is categorized as stated below:

List of Assets Categories	Useful Life (In Years) for SLM	Residual Value
Land	Not Applicable	N/A
Buildings	20 Years	Rs. 1
Leasehold Improvement	5 Years or Actual Lease Period	Rs. 1
Furniture & Fixture	5 Years	Rs. 1
Computers and IT Equipment	5 Years	Rs. 1
Office Equipment	5 Years	Rs. 1
Vehicles	5 Years	Rs. 1
Other Assets	5 Years	Rs. 1

ii) De-Recognition of Assets

An item of Property, Plant and Equipment (PPE) is derecognized upon disposal or when no Future Economic Benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of Property, Plant and Equipment is determined as the difference between the sales proceeds and the carrying amount of the Asset and is recognized in the Statement of Profit or Loss.

C. Investment Properties

Investment Property that is held for rental income or for capital appreciation or both, are initially measured at cost, including related transaction cost. It is subsequently carried at cost less accumulated depreciation. Subsequent additional expenditures are capitalized to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the company and the cost can be reliably measured. All other repairs and maintenance costs are expensed when incurred.

Land is carried at historical cost where buildings are depreciated over their estimated useful lives.

Investment properties are derecognized upon disposal or when permanently withdrawn from use with no future economic benefits. Any gains or losses on the retirement or disposals are recognized in the statement of profit or loss in the year of retirement or disposal.

Company does not hold any Investment Properties as on reporting date.

D. Deferred Tax Assets and Liabilities

Deferred Tax Assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible Temporary difference and the carry forward of unused tax credits and unused tax losses can be utilized.

Deferred Tax Liabilities are generally recognized for all taxable Temporary Difference.

The carrying amount of Deferred Tax Assets is reviewed at each reporting date on annual basis and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the Deferred Tax Asset to be utilized.

E. Financial Assets

Financial Assets are recognized when the Company becomes a party to the contractual provisions, and their classification is determined at initial recognition. When Financial Assets are recognized initially, they are measured at Fair Value, plus, in the case of Financial Assets not at fair value through profit or loss, transaction costs that are attributable to the acquisition of the Financial Asset. Transaction costs of Financial Assets carried at Fair Value through Profit or Loss are expensed in the Statement of Profit or Loss.

Financial assets are measured based on their category: Assets carried at **Amortized Cost (AC)** if held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the Financial Asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Interest income in these financial assets is measured using effective interest rate method, Assets at **Fair Value through Other Comprehensive Income (FVTOCI)** if held within a business model whose objective is achieved by both collecting contractual cash flows and selling Financial Assets and the contractual terms of the Financial Asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. These financial assets are measured at fair value and changes are taken to statement of other comprehensive income, and Assets at **Fair Value through profit or loss (FVTPL)** if is not classified in the above categories.

De-recognition occurs when the company transfers rights to receive cash flows from the Financial Assets, considering risks and rewards of ownership. Impairment is assessed if there is objective evidence of incurred loss events impacting future cash flows, such as financial difficulty, default, or observable data indicating a decrease in estimated future cash flows.

F. Reinsurance Assets

Reinsurance assets are the assets which are created against Insurance Contract Liabilities of the amount which are recoverable from the reinsurer. These assets are created for the reinsurer's share of insurance contract liabilities. It also includes claim payment reserve representing reinsurer's share in the claims to be paid.

A reinsurance asset is impaired if there is objective evidence, as a result of an event that occurred after the initial recognition of the reinsurance asset, that the Company may not receive all amounts due to it under the terms of the contract, and the event has a reliably measurable impact on the amount that the company will receive from the re-insurer. If a reinsurance asset is impaired, the company reduce the carrying amount accordingly and is recognized in statement of profit or loss.

G. Current Tax Assets

Current Tax Assets indicates the Income Tax that a company has overpaid or prepaid for a specific reporting period, and these funds are either to be refunded or used to offset future tax obligations. This is the amount that has been paid more in Tax than its actual liability for the period, or when Tax have been deducted at source (TDS) on the company's income like Interest earned on Investment of Fixed Deposit, Call Deposit and Payment of Instalment Tax etc.

H. Cash & Cash Equivalent

Cash & Cash Equivalents includes Cash in Hand, Cheque in Hand, Bank Balances and Short-Term Deposits having maturity period of three months or less.

I. Financial Liabilities

Financial Liabilities are recognized when the Company becomes a party to the contractual provisions, and their classification is determined at initial recognition. All Financial Liabilities are initially recognized at Fair Value and in the case of Financial Liabilities not at fair value through profit or loss, transaction costs that are attributable to the issue of the Financial Liability. Financial Liabilities are measured at amortized cost using the Effective Interest Method. For trade & other payables maturing within one year from the date of SOFP, the carrying amounts approximate fair value due to their short maturity.

De-recognition occurs when the obligation under the liability is discharged, cancelled, or expires. Replacement, modification, or substantial changes in terms result in de-recognition of the original liability and recognition of a new liability, and the difference in carrying amounts is recognized in the Statement of Profit or Loss.

J. Reserves and Funds:

- i) **Share Application Money Pending Allotment:** This fund arises if the company has issued Share and part of such Shares are not fully Paid-Up or Shareholders who have applied for Share is yet to be allotted.
- ii) **Share Premium:** If the Company issues share capital at premium it receives extra amount other than share capital such amount is transferred to Share Premium Account. The amount in share

premium is allowed for distribution subject to provisions of company act & regulatory requirement.

- iii) Catastrophe Reserve:** The Company has allocated catastrophe reserve for the amount which is 10% of the Net Profit for the year as per Regulator's Directive.
- iv) Fair Value Reserve:** The Company has policy of creating fair value reserve equal to the amount of Fair Value Gain recognized in statement of other comprehensive income as per regulator's directive.
- v) Actuarial Reserves:** Reserve against actuarial gain or loss on present value of defined benefit obligation resulting from, experience adjustments (the effects of differences between the previous actuarial assumptions and what has actually occurred); and the effects of changes in actuarial assumptions.
- vi) Revaluation Reserves:** Reserve created against revaluation gain on property, plant & equipment & intangible assets, other than the reversal or earlier revaluation losses charged to profit or loss.
- vii) Corporate Social Responsibility Reserves:** The Company has allocated CSR reserve for the amount which is 1% of the Net Profit for the year as per Regulator's Directive.
- viii) Other Reserves:** Deferred Tax Reserve equal to the amount of Deferred Tax Assets is created as per the financial directives issued by Nepal Insurance Authority.

K. Gross Insurance Contract Liabilities

At each reporting date, the Company reviews its unexpired risk and a liability adequacy test is performed to determine whether there is any overall excess of expected claims and deferred acquisition costs over unearned premiums. The calculation uses current estimates of future contractual cash flows after taking account of the investment return expected to arise on assets relating to the relevant life insurance technical provisions. If these estimates show that the carrying amount of the unearned premiums is inadequate, the deficiency is recognized in the statement of profit or loss by setting up a provision for liability.

In the Condensed Financial Statements, the calculation of the Gross Insurance Contract Liabilities has been presented in accordance with Clause Number 5, Point 2 & 3 of the circular issued by the Nepal Insurance Authority related to Quarterly Financial Statement.

L. Employee Benefits

Employee benefits comprise various forms of compensation provided by the company for services rendered by its employees. The company's benefits package includes short-term and long-term benefits, such as Salary, Allowances, SSF Contribution, Paid & Accumulated Leave, Annual Statutory Bonus etc.

The company follows the Accounting Standard NAS 19 – 'Employee Benefits' for recording of all employee benefits and reports the following in its financial statements:

- (i) Recognition of a Liability when an Employee has provided services in exchange for employee benefits to be paid in the future.
- (ii) Recognition of an Expense when the Group consumes the economic benefit arising from services provided by an employee in exchange for Employee Benefits.

M. Revenue Recognition:**i) Gross Premium**

Gross Premium are recognized as soon as the amount of the premiums can be reliably measured. First premium is recognized from inception date. At the end of the financial year, all due premiums are accounted for to the extent that they can be reliably measured.

ii) Unearned Premium Reserves

Unearned premiums are those proportions of premiums written in a year that relate to periods of risk after the reporting date. Unearned premiums are calculated on a pro rata basis. The proportion attributable to subsequent periods is deferred as a provision for unearned premiums.

iii) Premiums on Reinsurance Accepted

Premium on reinsurance accepted comprise the total premiums payable for the whole cover provided by contracts entered into the period and are recognized on the date on which the policy incepts. Premiums include any adjustments arising in the accounting period in respect of reinsurance contracts incepting in prior accounting periods. Unearned reinsurance premiums are those proportions of premiums written in a year that relate to periods of risk after the reporting date.

iv) Commission Income

Commission Income is recognized on accrual basis. If the income is for future periods, then they are deferred and recognized over those future periods.

v) Investment Income

Interest income is recognized in the Statement of Profit or Loss as it accrues and is calculated by using the EIR method. Fees and Commission that are an integral part of the effective yield of the financial asset are recognized as an adjustment to the EIR of the instrument.

Investment income also includes dividends when the right to receive payment is established.

vi) Net realized gains and losses

Net realized gains and losses recorded in the Statement of Profit or Loss include gains and losses on financial assets and properties. Gains and losses on the sale of investments are calculated as the difference between net sales proceeds and the original or amortized cost and are recorded on occurrence of the sale transaction.

N. Benefit, Claims and Expenses:**i) Gross Benefits and Claims**

Benefits and claims include the cost of all claims arising during the year, including external claims handling costs that are directly related to processing and settlement of claims. Benefits and claims that are incurred during the financial year are recognized when a claimable event occurs and/or the insurer is notified. Death, surrender and other benefits without due dates are treated as claims payable, on the date of receipt of intimation of death of the assured or occurrence of contingency covered.

ii) Reinsurance Claims

Reinsurance claims are recognized when the related gross insurance claim is recognized according to the term of the reinsurance contracts.

iii) Commission Expenses

Commission expenses are recognized on accrual basis. If the expenses are for future periods, then they are deferred and recognized over those future periods.

iv) Service Fees

Service fees are recognized on accrual basis as per the rates mentioned in Insurance act, 2019.

v) Finance Cost

Finance costs are recognized for the period relating to unwinding of discount and interest expenses due to re-measurement of liabilities.

O. Product Classification

Insurance contracts are those contracts when the Company (the insurer) has accepted significant insurance risk from another party (the policyholders) by agreeing to compensate the policyholders if a specified uncertain future event (the insured event) adversely affects the policyholders. As a general guideline, the Company determines whether it has significant insurance risk by comparing benefits paid with benefits payable if the insured event did not occur.

The Company may have following portfolios under which it may operates its business:

- (a) Endowment
- (b) Anticipated
- (c) Endowment Cum Whole Life
- (d) Whole Life
- (e) Foreign Employment Term
- (f) Other (Micro) Term
- (g) Special Term

The company has issued Group Micro Term Policies, Endowment Policy and Term policy till this reporting period.

P. Cash Flow Statement

Cash Flows are reported using the direct method, whereby major classes of cash receipts and cash payments are disclosed as cash flows.

Q. Leases

The lease liability has been accounted for under NFRS 16 “Leases”. For all the significant lease, the Right-of-Use assets has been recognized at its initial recognition under cash model. The Lease liability has been recognized at the present value of the lease payments that are not paid at that date. The lease payment has been discounted at the incremental borrowing rate in lease which is 10%.

After the commencement date, the right of use asset has been measured using cost model. The lease liability has been increased to reflect interest on the lease liability & has been reduced by the lease payment. The lease assets having the lease liability of equal to or less than 9 Lakh Present Value at inception has been considered as low value and for those lease the expenses has been recognized under Straight Line Basis.

R. Income Tax

Income Tax Expense represents the sum of the tax currently payable & deferred tax.

i) Current Tax

Current Tax Expenses are accounted in the same period to which the revenue and expenses relate. Provision for Current Income Tax is made for the Tax Liability payable on Taxable

Income after considering tax allowances, deductions and exemptions determined in accordance with the applicable tax rates and the prevailing tax laws.

ii) Deferred Tax

Deferred Tax is recognized on temporary difference between the carrying amounts of Assets and Liabilities in the Statement of Financial Position and their Tax Base. Deferred Tax Assets & Liabilities are recognized for deductible and taxable temporary differences arising between the tax base of Assets & Liability in a transaction that is not a business combination and affects neither accounting nor taxable Profit nor Loss at the time of the transaction.

S. Provisions, Contingent Liabilities & Contingent Assets:

The company applies NAS 37 – ‘Provisions, Contingent Liabilities & Contingent Assets’ in the accounting of provisions.

Provisions:

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events, for which it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate to determine the present value is a Pre-Tax Rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expenses.

Provisions for Contingent Liability are recognized in the books a matter of abundant precaution and conservative approach based on management's best estimate. However, Management believes that chances of these matters going against the company are remote and there will not be any probable cash outflow.

i)Contingent Liabilities

Contingent Liabilities are recognized only when there is a possible obligation arising from past events due to occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made. Obligations are assessed on an ongoing basis and only those having a largely probable outflow of resources are provided for.

ii) Contingent Assets

Contingent assets where it is probable that future economic benefits will flow to the Company are not recognized but disclosed in the Financial Statements.

T. Earnings Per Share

Basic Earnings per share is calculated by dividing the profit attributable to owners of the company by the Weighted Average Number of equity shares outstanding during the Financial Year.

For diluted earnings per share, the weighted average number of ordinary shares in issue is adjusted to assumed conversion of all dilutive potential ordinary shares.

U. Operating Segment

Operating Segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM) as defined by NFRS 8, "Operating Segment".

Company's Income & Expenses including interest are considered as part of un-allocable Income & Expenses which are not identifiable to any business segment. Company's Asset & Liabilities are considered as part of un-allocable Assets & Liabilities which are not identifiable to any business.

V. Leased Assets

The Company has made the use of leasing arrangements principally for the provision of the office spaces. The rental contracts for the offices are typically negotiated for terms of between 3 Years and above and some of these have extension terms. The Company has not entered into sale and leaseback arrangements. All the leases are negotiated on an individual basis. The Company has assessed whether a contract is or contains a lease at inception of the company. The lease conveys the right to direct the use and obtain substantially all of the economic benefits of an identified assets for a period of time in exchange for consideration.

At lease commencement date, the company has recognized a Right-Of-Use Lease Asset and a Lease Liability in its Statement of Financial Position. The right of use assets is measured at cost. Which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the company, an estimate of any costs to dismantle and remove the asset at the end of the lease, and any lease payments made in advance of the lease commencement date.

The Company has depreciated the Right of Use Asset on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right of use asset or the end of the lease term. The company has also assessed the right of use asset for impairment when such indicator exists.

At the commencement date, the company has measured the Lease Liability at the Present Value of the lease payments unpaid at that date, discounted using the company's incremental borrowing rate of 10% because as the lease contracts are negotiated with third parties it is not possible to determine the interest rate that is implicit in the lease. The incremental borrowing rate is the estimated rate that the company would have to pay to borrow the same amount over a similar term, and with similar security to obtain an asset of equivalent value.

Segmental Reporting

For the Quarter Ended 16th July 2025 (Ashar End 2082)

Segment information is presented in respect of the Company's business segments. Management of the Company has identified portfolio as business segment and the Company's internal reporting structure is also based on portfolio. Performance is measured based on segment profit as management believes that it is most relevant in evaluating the results of segment relative to other entities that operate within these industries. However, segment assets and liabilities have not been identified.

The Company operates predominantly in Nepal and accordingly, the Management of the Company is of the view that the financial information by geographical segments of the Company's operation is not necessary to be presented.
